

Parent Testimonials

“I was looking for the best education for my son and for me the best of the best is Catholic School. Not only because of the strong curriculum that they offer but also because of the attention they put on the overall development of the young men. Even though this was a sacrifice for me as a single mother of three, I do not regret my decision.” -**Sophie Kouyate, Parent of Amadou Kouyate '20**

“While not always easy...I wouldn't have it any other way...I work hard to pay full tuition for my son. He's proven it's worth it...Why? Because he works hard and has remained focused day after day for years...He earns his keep! But most importantly, because I see how much he appreciates being surrounded by teachers and an administration who listens and cares and leads by example! Thank you for helping me set my son up for a bright and successful future.”

-**Eileen Mendez, Parent of Steven Dumeng '20**

“I was extremely blessed that Dylan was accepted into La Salle Academy. I was leaving the decision to Dylan ultimately since it would be him going for the next four years and had to decide between La Salle and Fordham Prep. When I told Dylan to give me the difference in the two schools he said 'Every year that we toured La Salle from 6th-8th grade, the teachers had a passion for wanting to teach and showed that they really cared and had school spirit. They will also be available for the students.' He spoke with such passion for the school and even had a glow on his face when speaking. Our experience at La Salle has been all we expected and much more! We are honored to be part of the La Salle family and are grateful for the staff. I have noticed a difference in Dylan since he has started in September. He wears his uniform proudly and enjoys having the brotherhood.” - **Diane Roman Worrell, Parent of Dylan Worrell '23**

“As parents to a senior son, we write this testament with a heavy yet grateful heart. Our son's four years at La Salle not only helped him grow, but it also helped him form friendships that will last him a lifetime. It helped him experience new things. It helped him explore other interests and it helped him become the young man that we are proud to call our son. As a Catholic family, our faith relies on our belief that our son would become an extraordinary young man. All the sacrifices of overtime, two jobs and loans have made it all worth it. We believe without La Salle our son would not be ready for the world socially, academically and spiritually.” - **Theresa Falcon, Parent of Jimmy Falcon '20**

“We have chosen to send our son to Catholic school since the age of two and make the financial sacrifice, so that he would have a faith-based high-quality education. He continues to learn to be grateful for his blessings and to give back to those less fortunate in the community. A Catholic education is truly priceless.” - **Donna Ramos, Parent of Josh Ramos '22**
